Graduation Exercises Arranged by Agreement of Board and Pupils

Graduation exercises for the eighth grade of the Sierra Madre schools will be held as usual this year. Friendly adjustment of all difficulties has been arranged and the pupils, the school trustees and Principal Reynolds have agreed to a course which presents no obstacles for an enjoyable occasion.

The details of the program will be arranged under the supervision of a committee consisting of Dennis H. Stovall, Mrs. Edith Hawkshurst and Dr. Gilbert S. Bovard. All are keenly interested in the children and the school, but have not been involved in any of the recent controversy. Mrs. Hawkshurst will be able to help the children with musical features of the program, a feature which would have otherwise been lacking, owing to the school having no music supervisor.

This plan was put into effect by agreement first, of the pupils of the eighth grade, and then on the part of the school trustees. Both sides agreed to withdraw all actions they had taken in regard to the holding of exercises. Both sides agreed without reservation to give the committee a free hand.

The plan was suggested to both sides by the editor of the News, who explained that he was not representing anybody but himself and was merely seeking to bring peace and harmony out of the situation which had arisen. Both sides met the proposition in splendid, cordial spirit. The pupils voted by secret ballot in regular organization form, and their verdict was practically unanimous. Both sides expressed a desire to have the committee appointed by the News editor. The committee members named above have all agreed to serve, which gives assurance of a splendid, dignified and pleasing program. The graduates will contribute the usual numbers such as class history, etc.

Plan Is Popular

As the plan has become known among parents and citizens generally it has met with widespread approval. By taking the various issues in the controversy one at a time, it is felt that a way may be found through the whole situation which will avoid the disruption which has been threatened.

Outside of the radical adherents of the opposite sides of the school question, the general and growing demand is for a sane, quiet settlement of the whole thing. The feeling seems likely to make itself more strongly felt if a way is not found soon.

CONFERENCE FAILS TO TO EFFECT RESULTS

As a safety valve for the venting of pent up feelings, the conference of Tuesday afternoon between school trustees, parents of eighth grade pupils, and representatives of various civic organizations was probably worth while. As a means of getting anywhere, it made no progress in all directions uniformly.

The conference was called through the instrumentality of Mrs. Palmer Rhodes, one of the parents. President Shaw of the board presided, and defined the purpose and personnel of the meeting as he understood it. A number of pupils being in the room, he asked if it was the wish of the parents that they remain. The parents voting no, the children were asked by principal Reynolds to retire. In the same way a vote was taken as to whether a reporter for the Pasadena Post should remain, and his presence was agreed to.

For the most part, the discussion was in good temper and dignity, allowing for natural intensity of feeling. Most everybody went there with preconceived opinions, expressed them frankly and freely, and took the same opinions away with them.

President Shaw said the meeting was called to consider the question of holding or omitting graduation exercises. He said the pupils having voted not to receive the diplomas from the board was considered by the latter to be an act of insubordination and revolt against authority which could be met in no way but to follow the advice of the county superintendent and forbid the exercises.

Some of the parents declared the action of the pupils was not directed against the board, but against Presi-

dent Shaw personally. The other members of the board refused to so regard it, and declared the board was a unit on the matter.

Principal Reynolds asked to be allowed to make a statement. He referred to the published statement of the Board on the general school situation as false in every particular. He pointed out the success of his work in the past four years, explaining his ideas of discipline by giving the pupils a large measure of self control, and recalled the fact that he had carried through to successful graduation a number of pupils who had been regarded as peculiarly hard problems of discipline.

Mr. Reynolds denied the statement that the girls had refused to serve a meal to the trustees, and declared the so-called request for the privilege had been signed by several of them virtually under compulsion. Only five instead of ten teachers, said Mr. Reynolds, have signified their willingness to renew contracts with the board. He said he was aware of opposition on the part of the board members for some time, but declared the sequence of events showed that the letter of dismissal was due to his alleged activity during the school election contest. He also declared he had discouraged instead of fostering the feeling of the pupils against the board, but was powerless.

Mrs. H. E. Allen spoke impressively about the need of preserving respect for authority, and Mrs. Rhodes urged that the discussion be kept on an impersonal basis, complimenting President Shaw on his stand in that respect.

The meeting was frequently interrupted by applause and catcalls from pupils outside around the windows according as the various sentiments met with their approval or otherwise. Finally some of the mothers appealed to Principal Reynolds to see if he could not control the youngsters and asked if the exhibition was a sample of his discipline. After he had made a trip around the building the noise ceased.

One mother said her daughter had done nothing for which she should be penalized and she thought Mr. Shaw ought to resign. In reply to a question from President Shaw, several others assented to the proposal.

"There are many others who take an opposite view," he said in reply. "I have received many messages telling me that this thing must be fought out and this revolt against authority must be put down. If a general mass meeting were to be called it would reveal a widely different sentiment in this community." He did not at any time say he would call for such a meeting, as has been erroneously reported in outside papers.

E. A. Calvert said he thought the resentment of the children was not toward the board or against authority, but a feeling that the president of the board had not played square by failing to provide them with certain things they had been promised. C. H. Bennett spoke warmly in support of Mr. Reynolds. He said he had observed closely and believed the esteem of the pupils for Mr. Reynolds proved his value as principal. Several other parents spoke in similar vein.

A motion that the school board be asked to reconsider their action and the children be asked to apologize was put and lost. A motion that the school board be asked to reconsider their action was then adopted.

STATEMENT PREPARED BY PROF. REYNOLDS

Mr. Reynolds prepared for publication in the News a lengthy statement of his position in the whole controversy. Its essential points were those reported in his statement to the meeting of Tuesday. Thursday evening he asked for the return of the copy, being under the erroneous impression that it was already in type. He returned the copy to this office this morning upon being informed that it had not yet been set up. However, there was not sufficient time remaining for it to be printed in today's paper.

Do You Celebrate Mother's Day Once a Year or Every Day?

SCOUTS ARE USEFUL IN VARIETY OF WORK

Six more Scouts of Troop One, Sierra Madre, went before the Court of Honor of District Four, held at Monrovia Monday night, and were invested with the badges of first class. They were Leslie Miller, Carter Gregory, Dick Lees, Richard Cole, Johnnie Henderson and Albert Jones. Ten members of Troop One are now first class in rank and more will be ready when the next Court of Honor session is held. Several of these Scouts have made application for merit badges and are doing the necessary work to put them through the tests. Before the summer closes some will be in the Star Scout class.

Scouts helped materially this week in the Near East Relief collection of clothing. Through their assistance a large amount of goods was brought together and will be sent at once to the sufferers, through the proper channels.

LECTURE ON SIERRAS AROUSSES KEEN INTEREST

Coming of Clinton C. Clarke of Pasadena to the monthly meeting of the Men's Community Club at the Congregational Church next Thursday night is awaited with keen interest because of the reputation of Mr. Clarke's illustrated lecture on the High Sierras. Mr. Clarke is said to have a wonderful collection of colored views, collected as a hobby at great expense. He devotes his time and effort to the lecture work with the single purpose of arousing wholesome public interest in the great outdoors of California.

The lecture will be free and the public is invited to attend. Preceding the lecture, the monthly dinner for men will be served at 5:00 a plate. The ladies of the Aid Society will serve it, that being a sufficient guarantee of excellence.

Mrs. Hall Perry entertained a group of friends last Saturday evening with a kitchen shower in honor of Miss Ester Olsen whose marriage to Mr. Clarence Wilson of Huntington Park will take place the first of June. Cards and games were enjoyed during the evening and the guest of honor was the recipient of many useful gifts. Delicious refreshments were served by Mrs. Perry and Mrs. Shaw.

City Clerk Dietz has been on the semi-retired list the past fortnight on account of illness. He has managed to spend part of the time at his desk but expects to take a little vacation at the beach beginning today.

Mr. and Mrs. Arthur Pratt of Los Angeles were the guests of Mrs. Geo. Humphries of 81 East Grand View on Thursday and Friday. Miss Hilda Charles T. Fenner, 258 E. Alegria, and Frank Spencer, 118 Bonita, have recently become members of the Sierra Madre Chamber of Commerce.

BURGLARS MAKE HAUL AT NORM'S GARAGE

Tires, tubes, tools and auto accessories to the value of more than \$200 were stolen from Norm's Garage on East Montecito last Friday night a short time before 11 o'clock. The thieves are thought to have driven a Ford truck which was seen in front of the garage about that time.

According to Marshal A. M. Udell, the thieves must have forced the folding doors at the front of the garage enough to permit a man to climb over the top. He is then supposed to have handed out a pair of heavy cutting nippers with the outside padlock hasp was cut and the doors opened.

Finger prints on a new car body were thought to offer a clue but failed as a means of identification through Los Angeles criminal bureaus. One or two other leads are under investigation, but so far the identity of the thieves remains a mystery.

HOME TALENT PLAY WILL BE A SENSATION

"The best home talent play that has ever been staged in Sierra Madre" is the prediction of Mrs. H. E. Allen who is directing the Chamber of Commerce play to be given on the nights of Friday and Saturday, June 8 and 9. "Trust Emily" is the title of the play and Mrs. Allen has arranged for an exceptionally strong cast, which includes Mrs. W. R. Morgan, James N. Hawks, Mrs. James N. Hawks, Randolph Wood, Charles Hall Perry, Raymond Hedderly, Miss Mattie Seeey, Mrs. Victor Hill, Miss Eleanor Bayne, Miss Edith Blumer, Jack Wright and Mrs. J. C. Dickson.

WATER SUPERINTENDENT GOES TO HOSPITAL

Water Superintendent Tom Henderson, was removed from his home to the Sierra Madre hospital yesterday, after being confined to his bed the past week. He has suffered a breakdown from heavy work and recurrence of an old malady and has the sympathy of his many friends.

Telephone inquiries in regard to city water affairs could be directed to the city hall, or to the pumping plant on matters connected with that end of the business.

Dr. May C. Laidlaw of 83 N. Sunny Side Avenue, opened her pleasant home to the Ethmoid Chapter of the Axis Club, of the College of Osteopathic Physicians and surgeons, of which she is a member, on Saturday afternoon and evening of last week. A delightful supper was served at tables centered with Shasta daisies and ferns. Covers were laid for twelve.

Humphries and a friend of Los Angeles were dinner guests of Mrs. Humphries on Saturday.

CHURCH TO BUILD OPPOSITE THE PARK

Congregationalists Decide to Erect a New Church Home on Recently Acquired Site

With a hearty and unanimous vote the members of the Congregational Church decided Sunday morning to erect a new church building on the lot at the southeast corner of Central and Hermosa.

The new site is across the street from the present church building and is also directly opposite the new city park site, making it one of the most desirable in the city for such a purpose. The church members formally ratified the acquisition of the lot as had been previously authorized.

By the terms of the transfer the church gives in exchange for the new site the lot now occupied by the parsonage at 129 W. Central, plus a cash consideration of \$875. The church is to remove the parsonage at its own expense, and it will be located at the south end of the new site, facing on Hermosa Ave. The lot being 99x290 feet, leaves abundant room for all church purposes.

In addition, the following resolution was adopted:

Resolved: that the board of directors of this church be authorized and requested to appoint such committee as may be advisable, to act as a building and improvement committee, to take charge of the moving of the parsonage, improvement of grounds, and the raising of funds and the building of a new church building upon the ground recently acquired for that purpose, and we, the members, pledge our earnest and loyal support.

MUELLER APPOINTED TO PATROL FOREST

Approach of Dry Season Calls For Greatest Caution to Prevent Mountain Fires

Adam Mueller begins work today as forest patrolman employed jointly by the city of Sierra Madre and the federal forest service. He will cover the regular patrol, ranging from Pasadena Glen to the Big Santa Anita. The Bailey Canyon, Mt. Wilson Trail as far as Orchard Camp, Sierra Madre Canyon and Sturevant Trail as far as the Half-way are on the beat. Saturday night and Sunday morning will be spent as heretofore on the Mt. Wilson Trail, to control the week-end hikers.

Sudden changes of the past few days to extreme dry weather has brought the mountain fire danger to an acute stage earlier in the season than usual. It is hoped by forest officials and those interested in water supplies that the usual good record can be kept this season along the local patrol. During the month of March there were more fires in the Angeles forest reserve than during the entire season last year.

Cleaning of vacant lots will be required at once, according to Marshal Udell. Extreme care in the burning of rubbish and grass is required because of the sudden drying out of vegetation. The rule requiring permits for outdoor fires will be strictly enforced from now on.

LADIES AID MEETING

The next meeting of the Ladies' Aid Society of the Congregational Church will be held Tuesday, May 15, at 2:30 at the home of Mrs. Harry Bourne, 119 W. Grand View. The hostess will be assisted by Mrs. W. E. Anderson and Mrs. R. J. Lord. An old fashioned spelling match will be a feature of the afternoon.

The Get Together Club of the Eastern Star ladies were delightfully entertained Wednesday afternoon at the home of Mrs. H. M. Dumas of Eagle Rock, Mrs. Muskrath assisting as hostess.

Mr. and Mrs. T. D. Greer of Kansas City, Kan., have taken the bungalow at 92 E. Grand View for a sojourn in Sierra Madre. They have been visiting recently in San Diego.

Friends of C. W. Jones have been gratified at the improvement shown during the week after his hard siege with flu and pleurisy.

Canyon Streets To Be Lighted And Improved

Acquisition and improvement of the streets in Canyon Park subdivision will be undertaken by the city soon as a result of a petition brought to the city trustees last night by a large delegation of property owners. The petition which had been circulated by Mrs. John F. Dupre was very largely signed.

The canyon streets have never been dedicated for public use, the city always refusing to accept them until they were improved. The petitioners assured the board that they would stand the expense on a frontage basis as all other street work has been done, which put the problem on a workable basis. The city in taking over the streets will also make possible their lighting by the city, which has been impossible in the past.

Commercial dog kennels are now prohibited in Sierra Madre by the terms of an ordinance adopted last night. It has an emergency clause putting it into effect at once.

Some changes were made in the proposed zoning ordinance and May 24 set as the date for final public hearing.

MILLARD BAKERY WILL OPEN SOON

Under the management of Charlie Millard and B. Henrikson, the original Sierra Madre Bakery will reopen for business about May 19th. Much new machinery and other equipment has been installed, specializing on wholesale trade.

Mr. Millard has been in the plumbing business in Los Angeles since his father, D. J. Millard, retired from the bakery business some years ago. But he recently sold his Los Angeles business and has returned to Sierra Madre to reside and resume his old trade.

Mr. Henrikson has been with the Bakerite concern in Los Angeles and northern cities for several years and is an all round practical baker and experienced manager.

MASTER MASON DEGREE WILL BE CONFERRED

The sublime degree of Master Mason will be conferred on two candidates at the meeting of Sierra Madre Lodge next Tuesday night, May 15. The meeting will open at 7 P. M.

Last Tuesday night the lodge initiated as Entered Apprentices, Messrs. C. F. Young, Boyd Keith, Clarence H. Garrett and Leo Mayer.

SEILING SOLO WAS HEARD IN BROOKLYN

Prof. Oscar Seiling was surprised and gratified to learn that his violin solos broadcasted by the Times as part of the Sierra Madre radio program were heard as far as Brooklyn, N. Y. Manager John Daggett of Radio KJH reports to him the receipt of a card from a Brooklyn radio fan who heard Mr. Seiling clearly, including announcement of his name.

GOOD OLD TIMES TO BE REVIVED

The choir of the Episcopal Church are planning an Old Fashioned Party for the evening of May 24th at the Parish House. Community singing, specialties, prizes awarded the best old fashioned costume, refreshments and dancing of the old fashioned square dances will take place during the evening. A small admission charge will be made, proceeds to be devoted to the piano fund of the parish house.

INFORMATION ABOUT BUSINESS TRAINING

On account of the growing demand for information along the lines of business education, Mildred Zeller of the Sierra Madre News has been appointed special representative of the California Commercial College, 625 S. Hope St., Los Angeles. Full information may be obtained from her by calling at her office.

Mrs. Bertha Cox of Mansfield, O., is spending a few days with Dr. Addie H. Brady, 139 Esperanza.

CAPITAL TO SUB- DIVIDE PROPERTY

A real estate transaction involving nearly half a million dollars and one that will give a tremendous impetus to the development of this foothill region has just been completed thru the purchase by Cooke, Woodley & Thompson, capitalists of Los Angeles, of the 1300-acre Clara Baldwin Stocker ranch lying north of the Foothill boulevard and east of the Double Drive.

The consideration is given at \$400,000. The new owners plan to spend another \$250,000 on the property in preparing it for subdivision.

When ready for the market the magnificent stretch of canyon and valley land will comprise some of the finest country home sites to be found in Southern California, it is said. The holdings extend far into Santa Anita canyon, and carry extensive and very valuable water rights dating back from the time the lands were first purchased by the late E. J. ("Lucky") Baldwin.

Big Development Planned

One of the biggest development projects to be undertaken during recent years is started with the sale of the Stocker property, and it is declared that no single realty deal will have the effect upon foothill land values that the ranch sale is capable of.

The new owners, who have heretofore been engaged in big subdivision projects on Los Feliz Heights, Hollywood and the Beverly Hills district, plan to plot and subdivide the thirteen hundred acres into parcels varying from the size of an ordinary building lot to five-acre country home sites. As has already been said, a quarter of a million dollars is the estimate of

the cost for street work and other development that will include water, gas and electricity, etc.

Ideal Estate Sites

Much of the Stocker ranch property is improved with full-bearing orange trees. Besides the hundreds of acres in rich groves there are big tracts studded with oaks, sycamores and other mountain growth that is so desirable to those planning foothill country homes.

A tract of 160 acres is separated from the main portion of the ranch, and lies north of Monrovia.

AVOCADO GROWERS MEET AT PASADENA

The California Avocado Association will hold its annual spring meeting and fruit display Friday and Saturday, May 11-12, at the Hotel Maryland, Pasadena, Friday afternoon will be given over to the exhibition of avocado varieties. The display this year promises to be unusually large, and will represent many varieties. Friday evening a banquet will be held, following which Charles F. Stern of the First National Bank of Los Angeles, will discuss financing of horticultural industries, and C. E. Utt of Tustin, will tell of his observations on the avocado industry in Florida.

The program for Saturday morning contains discussions on Results of Frost Injury to Avocados—A second Report, by Knowles Ryerson, Agricultural Extension Service, Los Angeles County, the Future of the Industry, Ernest Brautman, Results of Some Pollination Studies, Dr. A. B. Stout, New York Botanic Garden, now working on the avocado at Pomona College, and the Importance of Stock and Scion in the Success of the Industry, by L. B. Scott, U. S. Department of Agriculture.

Saturday afternoon will be devoted to a business meeting.

Richard Knew.

The children at school had been getting vaccinated and that was all they could talk about. The Sunday before they had seen a man baptized at church and that was new to them, too. A few days later they were talking to each other about those things and Richard, age six, said in a "I-know-I'm-right voice": "Mother, ain't vaccination and baptizing the same thing?"

Ancient Industries.

The art of thinning iron appears to have originated in the Sixteenth century, and tinplate was first manufactured in Great Britain in 1670.

Would you keep
these valuables
on your doorstep
?

AT LEAST protect your health as well as you protect your material wealth. Do you keep your foods in the kitchen window or in the so-called, "cold-air" closet—an invitation to every passing germ? Where bacteria and germ-growths, causes of disease, may start their deadly work?

Perishable foods, especially milk, begin to spoil at a temperature of 50 degrees. This food deterioration is none the less harmful because it is often imperceptible to you. Often, it results in ill-health as well as waste.

The easy, safe way to keep foods is in the cold, even temperature of your ice-box—a temperature of 50 degrees and under that prevents germ-growth and protects your health and purse.

Mother's Cook Book

"Do not be so absorbed in your favorite
study that you shall not also have an eye
and a heart for matters pertaining to the
general welfare."

SIMPLE FOODS

COOASIONALLY the family will en-
joy a stew of the Irish variety.

Irish Stew.

Cut in small pieces two pounds of
meat. Chop one onion and fry in a
little meat fat, when the onion is a
light brown add the meat and cook
until slightly brown. Cover with boil-
ing water, adding seasonings as de-
sired. A small piece of bay leaf is
liked by some. Dice carrots, turnips
and tomatoes, using a pint of the cut-
up vegetables. Simmer until nearly
done, add raw potatoes sliced very
thin one-half hour before serving.
Place in a fireless cooker to cook or
on the back of the range, keeping the
food at a simmering temperature.

Peanut Butter Chops.

Take one-half cupful of peanut but-
ter, one-half cupful of bread crumbs,
one egg beaten, four tablespoonfuls
of catsup, a little onion and seasoning.
Mix in the order given into the form
of chops, place in a well-buttered
baking dish and bake in a moderate
oven for twenty minutes.

Chili Con Carne.

Brown a small onion in a table-
spoonful of fat, the onion chopped
fine. Add six ounces of chopped
round steak, one teaspoonful of salt,
pepper to taste, two cupfuls of
strained tomatoes, one cupful of
boiled rice, one pint of canned kidney
beans, one small chili pepper or a ge-
nerous dash of cayenne. Cook the meat
in the onion and fat for five minutes,
add the other ingredients and cook,
mixing well, for ten minutes, then
serve. The rice may be heated and
served in a mound with the meat
poured around it if preferred.

Honey Salad Dressing.

Beat the yolks of three eggs, add
three tablespoonfuls of strained
honey, three tablespoonfuls of lemon
juice, one-half teaspoonful of salt,
cayenne to taste, three tablespoonfuls
of salad oil. Cook the yolks and
honey until thick, stirring constantly;
add oil, one-half teaspoonful of salt,
cayenne and lemon juice. Cook until
thick. Cool and add before serving
one-fourth of a cupful of cream
whipped.

Raspberry Lacto.

Beat one egg, separating the white
and yolk; add one quart of butter-
milk, two cupfuls of strained honey,
one-fourth of a cupful of raspberry
syrup and freeze. When partly frozen
add the juice of a lemon. Any other
fruit syrups may be used.

ANNOYANCE

"I can smell that ham and cabbage
you're cooking away out in the
street."

"Do you think it will annoy peo-
ple?"

"Yes, it'll make 'em envious."

Cruel Deception.

"Jack deceived me cruelly," she
said.
"But why did you trust him?" said
her friend. "You knew that he was a
liar."

"Yes," she sobbed, "and I did not
trust him, and this time he told the
truth."—Boston Transcript.

Ocean Waves and Swells.

The words are given as synonyms,
but in practical use a distinction is
made. Swell is the name given to
ocean waves not produced by wind in
the locality in which they are met.
They are, however, set in motion by
storms occurring at a distance.

Good Advice, Ruth.

"Don't fret and worry after what
may never happen," says Ruth Came-
ron. "One can waste just as much en-
ergy in false emotions as in false mo-
tions."—Boston Evening Transcript.

EXAMINATION FOR CLERK CARRIER

An examination for the position of
clerk or carrier in the post office will
be held in this city on May 19, 1923.

Applicants must be citizens of the
United States between the ages of 18
and 45 years on the date of the ex-
amination.

Age and height and weight require-
ments are waived in the case of hon-
orably discharged soldiers, sailors and
marines.

Applicants must be physically sound
and male applicants must not be less
than 5 feet 4 inches in height in bare
feet and weight not less than 125
pounds without overcoat or hat.

For application blanks and further
information relative to this examina-
tion address.

REALTY TRANSFERS BY NEW AGENCY

Mrs. Genevieve Nuetzel reports the
following realty transfers and rentals
this week:

The Jack Rower property at 26 W.
Alegria to Arthur Nybe of Los An-
geles, who will make substantial im-
provements to the place.

A lot on Mariposa Avenue from H.
O. Vogel to William Roe, a recent ar-
rival from Chicago who will build a
home at once.

Rental of the Caley residence at 27
N. Auburn to Mr. and Mrs. Charles
Millard, who are moving here from
Los Angeles on account of Mr. Millard
re-entering the bakery business.

The next meeting of the Modern
Priscillas will be held on Thursday,
May 17, at the home of Mrs. W. S.
Hull, 153 Santa Anita Court.

Anita Stewart in "ROSE OF THE SEA"

From Countess Barcynska's world-read novel.
Flung from the sea, a beautiful waif; flung back again into an-
other sea—stormy with intrigue, bright with adventure, bitter with
costly romance. She squandered her love on a reckless youth and was
paid in full by his father. Real heart-drama here—intense, surpris-
ing, irresistible. Also a Comedy.

Thursday and Friday, May 17-18

"YOU CAN'T FOOL YOUR WIFE"

Leatrice Joy, Nita Naldi, Lewis Stone and Pauline Garon.
No, sir! It simply can't be done! Here's a whizzbang of a pic-
ture. With a story clipped from the Pages of Life—amazingly human,
vigorously truthful—and, above all abundantly entertaining. Inci-
dentally it takes you behind the scenes at reckless society revels that
will dazzle and shock you with their sumptuousness and daring. Pro-
duced lavishly by the man who made "The Sheik."
Baby Peggy in "Peg of the Movies."

Saturday, May 19

WILL ROGERS AS ICHABOD CRANE IN
"THE HEADLESS HORSEMAN"

You know the legend of "Sleepy Hollow!" You know the quaint
character of Ichabod Crane! You will laugh at Will Rogers as the
eccentric pedagogue of Sleepy Hollow! Be amused by the most novel
courtship ever seen! Thrill at the meeting of Ichabod and the Head-
less Horseman in one of the most exciting races ever filmed!
Also William Desmond in "His Trip Around the World in 18 Days"

OWNERS OF AUTOS CANNOT RECOVER

A decision which it is believed will revolutionize the present contract sales of automobiles has been handed down by Federal Judge Partridge.

The chief points are:

1. The vendor of a conditional sale retains to the property and therefore cannot compel the return of the property if the government has seized it for violations of the prohibition laws.
2. Such vendor has no lien upon the automobile for the simple reason that he himself is the owner.

The effect of this ruling, it is said, will be that dealers in the future will compel a purchaser to post with them a bond that the automobile shall not be used for violations of the prohibition laws until such time as all payments have been completed and full title vested in the purchaser.

The decision was made in three cases, all related inasmuch as in each case the dealer who had sold the seized automobile came before the court and made claim for it, contending that the buyer had not finished his payments and therefore did not really own the automobile.

In one of the three cases the dealer asked the court to adjudge that he had a lien upon the automobile for the unfinished payments and asked that this sum be deducted from the prices received for the machine when it was sold by the government, and given to him.

Judge Partridge, however, finds in effect that inasmuch as the automobile came into possession of the person using it to violate the laws with the full knowledge and permission of the rightful owner, the owner has no redress when the machine is seized by the government.

FREE TRUSTEES FROM LIABILITY

With the affixing of Governor Friend W. Richardson's signature, the liability of school trustees for accidents of children on school property will become a thing of the past. This bill recently passed the state legislature.

In addition to removing the liability from the trustees and placing it on the districts, a companion measure, also passed, gives the boards the opportunity of insuring their districts against damage suits.

There has been no opposition to either measure and their confirmation as expected it has been announced by county educational authorities.

The liability of trustees, an old common law principle recently rediscovered by a sensational northern suit caused state-wide consternation and wholesale resignations from school boards, particularly in rural districts.

THE RIGHT THING at the RIGHT TIME

By MARY MARSHALL DUFFEE

THE BORROWED CAR

The borrower is servant to the lender.—Proverb.

THERE is a really commendable generosity on the part of most automobile owners in trying to give the greatest amount of happiness possible with their cars. Few automobile owners refuse to lend their cars for any worthy charity—for instance, in many towns the orphan asylums each year call for borrowed cars to take the children for an outing. Hospitals depend on borrowed cars for taking convalescent patients for airings, and then, of course, there are the numberless times when the thoughtful owner lends his car to friends. Sometimes he sends his car, with a driver, to take some friend's family for an afternoon's outing. Often he sends it to take friends who have no car to or from some entertainment, or for a shopping trip.

Now, there is not much to be said about the mannerly way of lending a car. Don't be condescending in your manner. That is all. If you lend your car, do it with a generous spirit which will be sure to show in your manner.

But there is a good deal to say to the person who accepts the use of a borrowed car.

To begin with, use the car only for such hours as it is understood that you are to use it. That is, if a friend telephones you and asks you if you would like to use her car to do the Saturday morning shopping, between ten and eleven, be sure not to keep it until half past eleven.

If a friend on whom you are calling sends her car to take you home don't ask the driver to stop at somebody else's house while you make a call.

And never, never use the car roughly. Don't let the children kick the upholstery and scratch the varnish. Don't leave scraps or bundles. Be sure, when you leave the car, that it is as neat as it was when you entered it.

Another thing: Never accept the car from anybody but the owner. If you see a friend's car standing by the curbstone, don't ask the chauffeur if he won't just drive you on an errand. And never, unless in the case of a chauffeur who has been in the service of the car owner for a long time, accept his invitation to use the car. Even then, the only time you would be justified in doing so would be if he happened to be going in your direction, and suggested that he could take you home conveniently.

For one man who sincerely pities our misfortunes, there are a thousand who hate our success.—Colton.

FIELD MEET ON CITRUS CONTROL

Farm Advisor To Demonstrate Method Of Control to Prevent Big Losses

For the purpose of demonstrating successful control methods for the various root and trunk diseases of citrus trees, the losses from which amount to thousands of dollars annually, a series of field meetings has been arranged under the joint auspices of the Citrus Growers Department of the Los Angeles County Farm Bureau and the Agriculture Extension Service, for the first three days in the week beginning May 21st.

Citrus growers are rapidly coming to the recognition that there is too high a percentage of unprofitable trees in their groves and this percentage must be materially reduced if satisfactory profits are to be derived. A part of these trees are inherently poor producers and must be either removed or topworked. One of the principal causes of poor production, however, is the presence of root and trunk diseases which so impair the vitality of the trees as to result in failure to bear satisfactory crops. Of these trunk and root diseases there are five distinct kinds, some of which are especially prevalent. Satisfactory control measures for practically all of them have been developed by the citrus Experiment Station and are available for use by growers.

This series of field meetings is for the special purpose of demonstrating the recommended control measures for these various diseases.

An important feature which will be brought out in connection with the meetings will be the necessity of a semi-annual individual tree inspection in order to detect diseased trees while the diseases are in the initial stages, at which time they yield most readily to treatment. Through a semi-annual tree inspection and the use of the recommended treatment methods it is estimated that the production of the average citrus orchard may be increased from 15 to 25 per cent.

The schedule includes the following meetings: Monday, May 21, morning, Pasadena and Glendora. Monday, May 21, afternoon—Monrovia and Covina.

THE VICTROLA is Mother's Friend

The Victrola brightens the home for the whole family—but most of all, perhaps, for Mother. During the long hours of the day when she is alone in the house with no company save the monotonously-ticking clock, a Victrola may change her whole world for her. It "makes friends easily," singing, at any time, the songs she loves, or playing the tunes, old and new, she cares for most. The world's greatest artists help her to forget the weight of a thousand and one tasks. There should be a Victrola in your home. If you will drop in today we shall be glad to explain our easy terms.

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

BOY SCOUTS AND OTHER BOYS

"Fifty thousand boy scouts judiciously placed in Chicago would virtually put the delinquent department of the juvenile court out of business," says Judge Victor P. Arnold of the juvenile court, Cook county, Illinois. "The scout program provides for the growing boy the opportunity of learning by doing, fills in his leisure so completely that he seldom has the opportunity or inclination to associate with questionable companions, or to do any of the hundred and one things that a real American boy can do when time hangs heavily on his hands. It is the most perfect program ever given to the boyhood of the world, training for citizenship through service."

Scouting's powerful influence in character training and citizenship building is recognized by observing people everywhere.

The prevention of juvenile delinquency and the respect for law and order that the boy scout gains is a wonderful result of the training. Scouting has completely turned around the old idea that boys and police are natural enemies. Today the boy scout stands for law and order, and is the policeman's co-worker and friend.

Troop 96 of Minneapolis has the privilege of holding its meetings in the First Precinct Police station, and the police official in charge of the district declares that "The scouts know the police as their friends and helpers."

Boy scouts have acted under direction of the police in practically every city of the country, in directing traffic during congestion, in assisting children across streets, in patrolling at parades, and in performing first-aid in times of emergency and disaster. The boy scout movement is converting "the gang" into groups of healthy, wholesome boys, and directing their energy to community welfare and service to others.

Guardians of public safety in official co-operation with the police is a new role which scouts of Greater New York will soon fill, if plans mature which are now under consideration by officials of the New York police department and officials of the Boy Scouts of America. The boys will have opportunity to qualify through certain regulated work, as municipal aides. A method will be worked out whereby scouts will in turn be permitted to do community work. Honor awards will be given to scouts performing outstanding work in community safety.

SANITARIUM HAS TROOP

Scouting is for every boy. There are troops of boys with all their faculties and troops of deaf, dumb, blind and crippled scouts. Sick or well, "a boy is a boy for a' that," with the same hopes and ambitions.

At the Westfield (Mass.) Sanitarium for Tuberculosis, a most successful troop of 75 boys is in operation.

The patient scouts hall with glee their instructors when they come to the sanitarium, and because the scouts have the entire week to study up, they have become very proficient in all tests, passing except hiking and swimming which are beyond their strength, and keep their corps of examiners very busy.

Authorities say the program has meant much to boys in their illness, because of the emphasis on cheerfulness, thought for others, out-of-door life and its incentive to a boy to keep physically fit, mentally awake and morally straight.

When a scout is cured, the sanitarium keeps in touch with the local scout executive, sees that the boy gets into a troop in his home town, so that he will continue his out-of-door life, and become what scouting would have him, a sturdy man fitted for citizenship responsibilities.

GOOD TURN FOR DALLAS

The Dallas scribe marked up another civic good turn when he recorded among recent activities, the assistance the scouts rendered at the City Fair association, in delivering over 26,000 bulletins advertising the sale of thrift tickets sold for the purpose of erecting a manufacturing and automobile exhibition hall.

BOY SCOUTS DO GOOD SERVICE

Troop 1, Huntington Park, Cal., recently distributed 5,000 pieces of school literature and 3,000 Parent-Teachers' association notices.

BOY SCOUTS' GOOD TURN

Good turns by radio are a specialty with Troop 5, Providence, R. I. Recently these boys installed a radio set in the largest ward of the Rhode Island hospital, and shifted the aerial from time to time so that all the patients could in turn be entertained. At Christmas time the boys repeated this good turn, and in addition installed a set of their own construction in the children's ward, and presented it to the small patients for their own use.

FRICTION PROOFED

Brunswick Tires

are built by a new process which enables them to withstand friction, "the enemy of every tire in service," the source of 95 blowouts in 100. The friction-proofing of Brunswick Tires results in a new conception of tire service and reduces tire troubles to an amazing minimum.

Fairfax Stone.

The Fairfax stone is a stone marking the head of the Potomac river, and the farthest west point of Maryland. The early surveyors of this tract, working under the orders of Lord Fairfax, the owner of much of Virginia, mistook the north branch of the Potomac for the true river and settled the present boundary of Maryland and Virginia (now West Virginia) where it is.

Problem Solved.

A. J. U. writes: "Your reply to W. D. solves my problem. Ten days ago I made a trip, feeding our eighteen-months-old child kept hot in a vacuum bottle for six hours."—Syracuse Post-Standard.

NEW TOWN WILL BE BUILT ON SUNSET

As a memorial to the pioneer members of the Temple family, who came to Los Angeles more than a century ago, Walter P. Temple announced yesterday that he has just purchased a 300-acre site two miles east of San Gabriel, on which a model city, to be known as the Town of Temple will be developed, at a cost of \$1,000,000.

The property on which the town will be built was purchased from the Burkhardt Investment Company for a consideration of \$500,000 and is located midway between San Gabriel, El Monte and Arcadia.

Temple, who has associated with him Milton Kauffman, S. Dupui and George H. Woodruff in the project, plans immediately to start the construction of a business district and the installation of street lights, gas, water and electric service.

GLENDALE PLANNING FOR BIG CROWDS

Preparations for staging the Merchants Industrial Exposition here from May 25th to June 3rd have entered on their final stage, and the date set for the erection of the mammoth tent that is to house the exposition has been set for May 15th, when the various exhibitors will start arranging their displays to the best advantage in the spaces they have rented.

The exhibitors, according to H. L. Leavitt, director general of the project, are planning to offer prizes for the best decorated booths, and the decorators are expected to turn out some of the most striking results ever obtained in an affair of this kind. The bill posters are now engaged in covering the country for a fifty mile radius from Glendale with the posters that have been prepared, and additional lines of publicity will be undertaken shortly.

Daddy's Evening Fairy Tale by MARY GRAHAM BONNER

ROOSTER'S GIFT

It was the birthday of Mrs. Hen and all the animals in the barnyard were wishing her "many happy returns of the day."

"Cackle, cackle," said Mrs. White Hen, "many happy returns of the day. And may you enjoy your Hen life always."

"Thank you, thank you," said Mrs. Hen.

"Cackle, cackle," said Mrs. Brown Hen, "many happy returns of the day. May you always stay on the right side of a road."

"Thank you," said Mrs. Hen. "I hope I'll have the good luck you wish me." "Cackle, cackle," said Miss Fidgety Fashionable Hen, "many happy returns of the day. I trust you will never become too nervous a hen for nerves are very trying."

"I know mine often bother me dreadfully."

"I get so upset at times that if only they had Hen Smelling salts I know I'd be the first to use them."

"Ah, yes, I know that. I've heard people talking of having to use smelling salts. I wish we had them in Hen circles for I'm sure they might do my poor nerves a great deal of good."

"Well," said Mrs. White Hen, "they might, but it is Mrs. Hen's birthday today and you mustn't talk about your nerves. You must forget them for one day."

"Alas," said Miss Fidgety Fashionable Hen, "how am I ever to forget my nerves?"

"They're always with me. They are so trying."

"Well," said Mrs. Brown Hen, "just try to forget them while we sing Mrs. Hen the birthday songs we've made up in her honor."

"Oh, yes," said Miss Fidgety Fashionable Hen, brightening up, "I have a lovely song, too."

"I've a bit of a cold today and so will not be singing my best, but I think you'll like my song, Mrs. Hen."

"Friends have told me that I was truly a great poet—or poetess or hen-poet or hen-poetess as you prefer."

"I have been told that some of the poetry written these days amounts to very little and that some of the poetry

"A Birthday Present."

written in the olden days is too deep for lots to understand.

"But my poetry amounts to a great deal—I always write or sing more than a mere two or three lines and my poetry isn't so deep that it can't be understood."

"I believe in beautiful simplicity." "Cackle, cackle," said all the hens, "do begin then, Miss Fidgety Fashionable Hen."

So Miss Fidgety Fashionable Hen cleared her throat, explained again that she had a slight cold, and then began to cackle these words:

"Many happy returns of the day: I wish you luck, Mrs. Hen, I say. I think you're nice and also kind; I think for a hen you've got a good mind. I'm glad to sing for you, my dear. For I think you appreciate I'm here; Whereas some in the barnyard really do not."

They're such an ignorant, cackling lot. But Mrs. Hen, let me end this lay. Again wishing you many happy returns of the day."

Well, the hens cackled and were really quite delighted at this song for none of them thought Miss Fidgety Fashionable Hen meant they were ignorant. Each thought she meant the others.

And Mrs. Hen was delighted. Mrs. Brown Hen sung this birthday verse:

"Greeting on your first birthday: May you have a second, I say."

Mrs. White Hen sung this birthday verse:

"I like you in the barnyard to be; That's where you look so familiar to me. If I see you at the County Fair, You're hardly then really aware. That I'm there too, and yet I will say That neither do I make a fuss your way. Still I like you, my dear, and my hen heart burns With love as I wish you Happy Returns."

But Mr. Rooster didn't bother about poetry.

He came, bringing to Mrs. Hen a fine worm as a birthday present, and he carried it on a tray made of good rich earth!

He Knew the Coal Man.

"Johnny," said the teacher, "if coal is selling at \$14 a ton and you pay the dealer \$65, how many tons will he bring you?" "A little over three tons, ma'am," said Johnny promptly. "Why, Johnny, that's not right," said the teacher. "No, ma'am, I know it ain't right," said Johnny, "but they all do it."—Judge.

Sunshine & Showers

by

DE WITT T. JONES

Since vacuum cleaners, vacuum feed cars and vacuum cup tires have come into public favor one might expect the vacuum system of drinking coffee, to come into vogue.

Mother Nature is sending us heat, But we might be able to fool her, If every day we would have her re-peat,

"It's getting cooler and cooler and cooler."

—Whit Greenleaf.

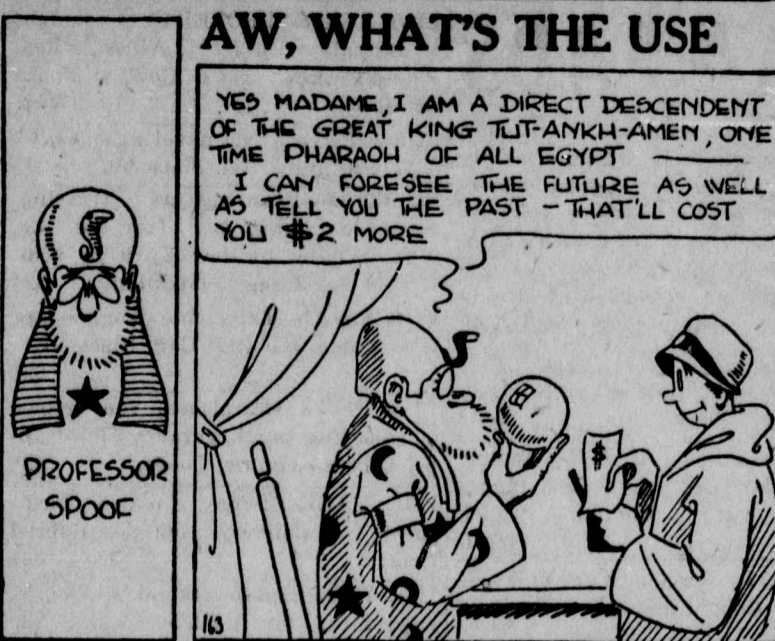

Sunday is Mother's Day. For several years now, one Sunday has been set aside for the mothers. Flowers will be worn and telegrams will be sent and the little things which we usually forget the other 364 days in

the year will be done and the mothers will come into their own for one day at least. Once in a while we come across a son or daughter who remembers his mother every day and in that case, mother is living in her third heaven for there is nothing more cherished by the average woman than the little courtesies that show that her children in some measure at least understand, love and appreciate her. The most wonderful thing about mothers is the fact that they are so easily pleased and when we see the joy that is theirs on a day like Sunday will be, we feel ashamed that Mother's day come but once a year.

When Fiction Is Romance.

Fiction is to the grown man what play is to the child, and when the game so shines with his fancy that he can join in it with all his heart, when it pleases him with every turn, when he loves to recall it and dwells upon its recollection with entire delight, fiction is called romance.—R. L. Stevenson.

AW, WHAT'S THE USE

I PREDICT THAT YOUR HUSBAND SHALL HAVE A VIOLENT ARGUMENT WITH YOU TONIGHT

By L. F. Van Zelm

SIERRA MADRE WOMAN'S CLUB

Luncheon and Program

The club is proud to advertise as its
main luncheon speaker for Monday,
Supervisor Prescott F. Cogswell, who
having only recently returned from
the north, where he has been attend-
ing a conference on State Highways,
will doubtless have much information
of interest to report. W. S. Grassie
of the Altadena Foothill Improvement
Association, will also speak. Do not
delay making reservation for luncheon
which is a joint affair of the Woman's
Club and the Chamber of Commerce,
and will be served at 12 o'clock sharp.

It is anticipated that the reports of
the delegates to the Eureka Con-
vention will be unusually interesting and
the second appearance of the Woman's
Club Chorus will be hailed with joy.

Events of Interest

The May dance, tonight, Friday the
11th, at which special features pecu-
liar to the happy May day spirit, will
prevail.

Another gallery day picnic, at ex-
position park, on Saturday, May 19,
to view the Southern California art-
ist's and sculptor's exhibit. Detailed
plans to be announced later.

"Convention Notes"

Splendid high class advertising for
Sierra Madre, gave our lovely little
city unlooked for prominence at the
recent state convention at Eureka.
We have it from returned delegates
that the pleasant memory of a deli-
cious luncheon served by the ladies of
the Sierra Madre Woman's Club at
the instigation of Mrs. Steinberger
to the state officers and their friends
at the Southwest Museum, during last
year's convention in Los Angeles, and
the beautiful souvenir palms presented
by the Sierra Madre Chamber of Com-
merce at that time, made for our city
a lasting place in the hearts of the
ladies, and brought a deluge of re-
newed assurances of appreciation, to
our delegates in attendance there.

One of our esteemed residents, Mr.
Oscar Rasback, composer-pianist, also
received enviable notoriety, for there
in the wonderful setting of massive
red-woods, his beautiful composition,
"Trees" was sung twice, and deeply
appreciated.

Owing to the fact that the President
Mrs. Milton Steinberger, was unable
to attend the convention, the club in-
stitute which it was to have been her
honor to conduct at one of the sessions
was handled by Mrs. W. J. Lawless.
We learn from reliable sources that
this was done in a most efficient and
dignified manner and the club is proud
to have been so splendidly represent-
ed.

FAMILIAR NAMES

IN ARVIN BOOSTER

The local news column of the
monthly Arvin Booster contains the
following items of interest to Sierra
Madre people:

Mr. and Mrs. E. C. Carhart of Los
Angeles who have property south of
Arvin visited the Nourse's Sunday
while on a business trip.

Miss Myrtis Krauter of Sierra Ma-
dre is visiting Mrs. L. W. Bornhau-
ser.

Mr. and Mrs. C. C. Nourse visited L.
B. Nourse and family recently.

GOES FISHING

DISCARDS CRUTCH

George Cox has discarded crutches,
canes etc., as a result of a fishing trip
to the West Fork last week. It was
neither a fountain of youth nor any
magic quality in the waters of the
trout stream that brought about a cure
of the malady which has kept him in
bed or on crutches for months, caused
him to have his teeth extracted and
to try every known cure. But, where-
as he was lame, he now walks straight
as a die, without props.

George wanted to try his luck with
the trout. So he packed his kit, put
on one of those wide leather belts
like the cowboys and motorbike riders
use, hired a horse and hit the trail.
Making the Westfork safely, his took
his crutch and trout rod and started
fishing. Pretty soon he discovered the
crutch was superfluous, the wide belt
giving him all the support necessary.
He has not used the crutch since.
When he got ready to come home he
shouldered a 28-pound pack and walk-
ed the 15 miles home.

George has had a theory all the time
that his trouble was not due to bad
teeth, a tubercular hip, rheumatism
or any of the other things which had
been blamed, but to some misplaced
vertebrae which needed the support
given by the leather belt. At any rate
he is running around town as spry
as he did years before he got into the
invalid class.

Mrs. George B. Morgridge and
children are enjoying an outing at
Seal Beach this week.

APPETIZING PASTRY—

LADDIE BOY!

YES, that is the name of President Harding's Pet
Dog. But what I am referring to is

TWO OIL WELLS

to be drilled on 5 acres in the height of production at
Santa Fe Springs; close by the Boeske well, Russell,
Julian No. 4 and across the road from Julian
No. 8 and 9, and the next 10 acres to the Pa-
cific States lease in which so many Sierra Madre peo-
ple bought shares which they can sell at a profit
right now. The drillers are now on the ground, set-
ting boilers, etc., for the Pacific States well.

That is the kind of stuff to sell—I am afraid of
wild cats—even superstitious when a black cat
crosses my path on Friday, the 13th.

I will be going to Santa Fe Springs, Saturday
about 10:30. Would be glad to take any one who
would like to see the field. Will show you a legiti-
mate proposition and assure you there will be no
obligation on your part whatever.

WILL BUY

Pacific States Oil Co. Shares
All Julian Units.
Hamilton No. 4.
Sandburg.
White Star No. 1 and 3.
